

Cummins to Acquire 50 Percent of Momentum Fuel Technologies From Rush Enterprises

June 29, 2021

DALLAS and FORT WORTH, Texas and COLUMBUS, Indiana , June 29, 2021 (GLOBE NEWSWIRE) -- Cummins Inc. (NYSE: CMI) and Rush Enterprises, Inc. (NASDAQ: RUSHA & RUSHB) today announced that they have signed a Letter of Intent for Cummins to acquire a 50% equity interest in Momentum Fuel Technologies from Rush Enterprises.

The proposed transaction is expected to close later this year, subject to completion of customary pre-closing activities and entering into mutually agreeable transaction documentation. The joint venture between Rush Enterprises and Cummins will produce Cummins-branded natural gas fuel delivery systems for the commercial vehicle market in North America, combining the strengths of Momentum Fuel Technologies' compressed natural gas (CNG) fuel delivery systems, Cummins' powertrain expertise, and the engineering and support infrastructure of both companies.

"This collaboration shows Cummins' continued commitment to natural gas powertrains," said Srikanth Padmanabhan, President of the Engine Business at Cummins. "This partnership will improve customers service for both CNG and RNG through an improved support network. We are thrilled to expand our network of clean and reliable power solutions."

"The immediate environmental benefits of CNG and RNG, combined with upcoming regulatory requirements, will drive growth in natural gas vehicles for the foreseeable future," said W.M. "Rusty" Rush, Chairman, Chief Executive Officer and President, Rush Enterprises, Inc. "This partnership will enable Rush Enterprises to continue to provide unparalleled support to our customers through our mutual, wide-ranging portfolio of Cummins' and RushCare aftermarket solutions and keep trucks up and running across the country."

The joint venture will offer aftermarket support through Rush Truck Centers dealerships and Cummins distributors which will be able to service both the engine and the fuel delivery system. The partnership between Cummins and Rush Enterprises will benefit customers by providing them with access to an extensive CNG vehicle parts and service network; both Cummins' and Rush Enterprises' respective networks, which together represent over 250 locations in the US and Canada, will be equipped with certified technicians and access to a comprehensive CNG vehicle parts inventory.

About Rush Enterprises, Inc.

Rush Enterprises, Inc. is the premier solutions provider to the commercial vehicle industry. The Company owns and operates Rush Truck Centers, the largest network of commercial vehicle dealerships in the United States, with more than 100 dealership locations in 22 states. These vehicle centers, strategically located in high traffic areas on or near major highways throughout the United States, represent truck and bus manufacturers, including Peterbilt, International, Hino, Isuzu, Ford, FUSO, IC Bus and Blue Bird. They offer an integrated approach to meeting customer needs — from sales of new and used vehicles to aftermarket parts, service and body shop operations plus financing, insurance, leasing and rental. Rush Enterprises' operations also provide CNG fuel systems, telematics products and other vehicle technologies, as well as vehicle up-fitting, chrome accessories and tires.
